DAVIDE BATTISTI

curriculum vitae*

Short Presentation

Since November 2026, I have been a Tenure-Track Assistant Professor (RTT) in Moral Philosophy at the Department of Humanities (DILEF), University of Florence. I also continue to collaborate as an Adjunct Researcher with the University Research Priority Program (URPP) Human Reproduction Reloaded at the University of Zurich, within which I previously worked as a postdoctoral researcher at the Institute of Biomedical Ethics and History of Medicine (IBME), focusing on philosophical, ethical, and social issues related to human reproduction and genetics. I hold the Italian National Scientific Qualification (ASN) as Associate Professor in Moral Philosophy.
I have published several papers on topics such as AI ethics, reproductive ethics, allocation of scarce healthcare resources, ethics of science communication, and research ethics. My work has appeared in journals such as Bioethics, the Journal of Medical Ethics, the American Journal of Bioethics, Ethics & Human Research, Philosophy & Technology, Medicine, Health Care and Philosophy, AI & Society, and Nature Medicine. In 2024, my first monograph, *Procreative Responsibility and Assisted Reproductive Technologies*, was published by Routledge (Routledge Research in Applied Ethics). In 2025, I published the book *Bioetica* (Bioethics) with Corriere della Sera.
In addition to my academic pursuits, I am actively involved in disseminating a philosophical and critical approach to the most important economic, political, and social issues of contemporary times. In this respect, I am the founder and scientific director of the Trentino2060 festival, an event for public engagement and discussion, held in Italy, particularly in the Trentino province, and promoted by the Agorà Association and co-promoted by Valsugana and Tesino Cooperative Bank. I also serve on the board of the Valsugana and Tesino Cooperative Bank Foundation, dedicated to fostering cultural and social development in Valsugana and in the surrounding areas of Veneto.
